Press Release

Trajkovski & Partners Consulting earns ISO 27001 Certification

First Company in the region who obtained integrated management system certification for ISO 27001:2005 Information Security Management System and ISO 9000:2001 Quality Management System

Skopje, 29 September 2006 – Trajkovski & Partners Consulting announced today that it has migrated from BS 7799 compliant to an ISO 27001 compliant organization. Trajkovski & Partners Consulting is amongst the top 20 Management Consultancies in Europe to have been conferred the prestigious International Organization for Standardization (ISO) 27001:2005 certification for information security.

Together with the CMC (Certified Management Consultant) certificates for T&P consulting team in 2004 it is now the first management consultancy in the region who have earned this two highest credentials for the quality of its management consultancy processes and information security processes respectively.

The ISO 27001 standard promotes internationally recognized principles governing security and network systems. It defines an Information Security Management System (ISMS) and complements the ISO 17799 'code of practice' standard.

Responding to this milestone for the company, Mr. Ljubomir Trajkovski, Managing Director said, "Quality and Security are two basic cornerstones how T&P is serving its clients. We are delighted to achieve ISO 9000 / ISO 27001 certification which is only awarded to companies who can prove highest levels of competency in quality management consultancy and information security management. Security of information is vital to our clients and we are committed to protect our clients information as much as the clients do it for them self. This integrated certification is very strong endorsement of our existing consultancies and security processes. T&P is committed to have proactive role in this Quality and Security journey. T&P believed that this certification coupled with our worldwide management consultancy code practice will further enhances the robustness of our consultancies practices and our constantly improving business improving processes delivered to our clients. Our efforts and commitments to Quality and Security serve the purpose of helping us in gaining higher confidence and comfort from clients, as they get the assurance of confidentiality of their information that is secured in accordance with an internationally recognized standard."

About 27001

ISO 27001 is a standard setting out the requirements for an information security management system (ISMS), the certificate, outlines the rules of defining, establishing, implementing, operating, reviewing, monitoring, maintaining and improving a documented Information Security Management System within the context of an organization's overall business risks. The standard is designed to ensure the selection of adequate and proportionate security controls that protect information assets and give confidence to interested parties including an organization's customers.

About Trajkovski & Partners Consulting

We are small, efficient and high quality consulting practice specialized in supporting large and small companies and public sector organizations to change the way they fulfill the needs of their customers and to improve the way how they manage their businesses.
