Subject: Recommendation letter

Dear Sir/Madam,

With this letter we would like to confirm our satisfaction with the conducted work of the consulting organization Trajkovski & Partners (T&P), for the purposes of the association Center for Promotion of Sustainable Agricultural Practices and Rural Development - CeProSARD.

Trajkovski & Partners was selected because of its rich experience in the field of consultancy and by recommendation of other partner organizations that have used their services. A Training of Trainers for the employees of CeProSARD was realized as two-day training with duration of 14 effective hours. The training took place on 30 and 31 July 2012 in Hotel Romantic, Veles with a specific focus on three main themes: facilitating, skills for successful training, and effective presentation. During the implementation of the training T&P used a variety of techniques and supporting tools.

The need for this training was identified by the leadership of the association in order to properly implement its strategy and planned project activities. CeProSARD employees, depending on the subject matter they cover, very often take part in trainings organized by the association in the role of trainers. With its main focus the continuous improvement and upgrading of the employees, the association needed to strengthen their capacities for presentation and facilitation skills, as well as development of other relevant skills.

The overall objective was successfully accomplished and the training conducted by T&P helped us to gain additional skills and recommendations for improving and monitoring our performance in future training activities. Advice from the experienced consultants of T&P will be used as guidelines and will be implemented by our organization.

In this respect, it is our pleasure to recommend Trajkovski & Partners as a professional, reliable and capable organization.

Yours Faithfully,

Svetlana Petrovska
Executive director of CeProSARD
