Recommendation letter
for T&P Consulting

Skopje, 01.10.2015

Ref: Development and implementation of an ISO/IEC 27001 compliant Information Security Management System in iVote

To whom it may concern:

In the period May – August 2015, the consulting company T&P Consulting was engaged by iVote to develop and implement an Information Security Management System (ISMS) in accordance to the ISO/IEC 27001:2013 standard.

The ISMS was very important step for iVote. We consider the information security essential and crucial for iVote. The Election Management software services and expertize that iVote provides to the customers are with the highest requirements for security of information.

The ISMS was developed and implemented on time, with very stringent deadlines set by iVote. The T&P consulting team was very professional, flexible and responsive during the whole time. After the external audit assessment, iVote was found to be compliant with the ISO/IEC 27001:2013 standard, and issued an appropriate certificate on the 16th of September, 2015.

Therefore, I would like to recommend the services of T&P Consulting. If you have any questions, feel free to contact me.

Tomislav Zografski

COO of iVote d.o.o.
