Recommendation for Trajkovski & Partners Consulting

To whom it may concern,

It is a great honor to write a recommendation for the company Trajkovski & Partners Consulting. With Mrs. Jasmina Trajkovski (Trajkovski & Partners Consulting) we first encountered on the project for implementation of ISO27001 standards organized by USAID in 2011. The process of implementation and the project deadlines were monitored by a consultant on behalf of USAID, Ms. Jasmina Trajkovski (Trajkovski & Partners Consulting), who was of great help with her consulting advices and practical solutions.

When we decided to implement the standard 9001, in 2014, there was no doubt regarding the selection of consulting firm, so we started implementation with Trajkovski & Partners Consulting in late 2014.

The general goal of the project is implementation of integrated management system in AB Soft based on the following standards ISO 9001:2008 and ISO 27001:2013.

The concrete goals of the project are:

- Document a Quality management system based on the minimal requirements of ISO9001:2008
- Prepare the QMS for certification by independent certification body
- Design and implement solid and comprehensive framework for Integrated Management System that will be consisted of ISO9001 and ISO27001
- Upgrade of the QMS and migration of the ISMS to the new ISO27001:2013
- Readiness for certification of the Integrated Management System based on relevant standards by independent certification body

Also, we would like to emphasize that in the situations when we needed practical consulting advices regarding the application of the standards we always have encountered professional and fast support from their side.

We sincerely recommend you to collaborate with Trajkovski & Partners Consulting. You will achieve your goals with the ease and reliability, and most importantly they will help you identify the most relevant aspects of the standards and apply those benefits that are most useful for your organization.

Sincerely,

Marija Milojević, commercial director
